

# essenza sintetica Scooter MA2

essenza

SAE 5W-40

fully synthetic

SPECIFICATION LEVELS  
API SL level, JASO MA2

AVAILABLE PACKAGING

## PRODUCT DESCRIPTION

A fully synthetic engine oil specially designed for use in scooters equipped with high performance four stroke (4T) engines, both air or water cooled systems. This product utilizes the latest ester technology that exhibits a high level of natural polarity and ensures excellent oil film adherence on metallic surfaces with enhanced wear protection. Well-suited for the lubrication of most modern scooters operating in long distance and urban riding applications.

## PROPERTIES AND PERFORMANCE

- Fully synthetic formula displays extremely low volatility and greatly lowers oil consumption.
- High and stable viscosity index helps to reduce viscosity changes after prolonged exposure to high temperature and severe load conditions, providing optimum oil film strength for all moving components in the engine.
- Superior detergent-dispersant properties minimize the formation of sludge and other engine deposits. This helps prevent ring sticking and keeps pistons clean.
- Outstanding antiwear, antifoam, rust and corrosion control properties that reduces the need for engine servicing, contributing to longer equipment life.

## CHARACTERISTICS (TYPICAL FIGURES)

SAE Grade		5W-40
Viscosity at 100°C	mm <sup>2</sup> /s	14.5
Viscosity at 40°C	mm <sup>2</sup> /s	85
Viscosity at -30°C	mPa.s	5300
Viscosity Index	-	170
Flash Point COC	°C	>200
Pour Point	°C	-35
Mass density at 15°C	kg/l	0.852
